

Dairy Industry Collection

Hygienic | Sanitary | Safe

Remco
a Vikan company

Remco provides color-coded, FDA-compliant cleaning and material handling tools that are ideally suited for dairy facilities that process products like pasteurized and homogenized milk, cheese, butter, whipped cream, and so on. In addition to showcasing Vikan's advanced line of hygienically-designed brushes, brooms and squeegees, Remco also features scoops, shovels, scrapers and many other mechanical cleaning tools, which are designed to effectively and efficiently meet wet- or dry- cleaning and sanitation program requirements for a dairy enterprise.

Hygienic Cleaning and Material Handling Tools

Available from Remco Products

The dairy industry requires strict adherence to sanitary rules and regulations. Where automated CIP systems cannot be used, mechanical cleaning with hygienically designed brushes may be the most effective option. So, unlike foamed plastic or wooden tools, such sanitation tools have smoother surfaces, are easier to clean and less likely to harbor pathogens or other contaminants since they don't have crevices or gaps. Moreover, we have the best available scrubbing brushes for removing stains, dirt and rigid biofilms from surfaces.

Regardless of a dairy operation's size and complexity, our color-coded tools can effectively help prevent allergen cross-contact, bacterial or foreign material cross-contamination between designated zones. Our tools are available in as many as 12 colors, making them ideal for integration with color-coded plans.

Remco 3" Hand Scraper
6961x

Colors Available: 1 2 3 4 5 6 7 8 9 10 11 12

Length:	Width:	Depth:
8.1"	3.0"	0.1"
Weight:	0.09 lbs.	
Deflection / Softening Temps:	183°F / 266°F	
Material:	Polypropylene	

Remco 4" Hand Scraper
6962x

Colors Available: 1 2 3 4 5 6 7 8 9 10 11 12
