HAND

As a supplier of protective products, contributing to the safety of consumers and workers is of utmost importance to RONCO. For that reason, we have adopted the principles of the Clean & Safe™ Guarantee. From the storage of the raw material to the delivery of the product to your warehouse, RONCO is committed to maintaining the integrity and hygiene of each

of the products we offer. This Guarantee ensures that products remain sanitary throughout the manufacturing process, including the:

- Quality and storage of raw material;
- Handling and transformation at the manufacturing facility; and
- Verification and control of finished product quality

Raw Material

Close attention is paid to the consistent quality and storage of the raw material used in the manufacturing process. This stage is the first step in ensuring consistency in the quality of the finished product.

Quality Control

Product quality is verified at several stages before being released for delivery to the customers. Random quality control is done online during production. A pre-shipment inspection then occurs. Upon receiving the items, an additional test is conducted by internal quality control on product samples in order to ensure that they meet standards and specifications.

Manufacturing Facility

This step of the Clean & Safe™ system focuses on the:

- Safety of employees;
- Hygiene of workers, particularly of those individuals in direct contact with the product;
- Cleanliness of the packaging materials; and
- Storage of the finished goods until shipment

The Guarantee's Benefits for You

With this Guarantee in place, you can be confident that you will receive products that:

- Are hygienic, reduce the risk of contamination;
- Offer consistent product quality; and
- Meet and exceed industry standards.

Providing consistent quality products: our priority

RONCO is a customer-focused company committed to providing consistent quality products and services to respond to industry's safety product requirements.

We are dedicated to the support and realization of our quality policies, objectives and systems. In order to achieve our goals, employee training is an important part of our corporate culture.

Quality Control

As a part of our efforts to ensure that we only deliver consistent quality products, all of our products undergo strict quality inspections, to ensure that they comply with our specifications.

- During the manufacturing process, on-line inspections are performed.
- Before products are shipped, RONCO representatives conduct a quality inspection of random samples, to ensure that products meet specifications.
- As the products are being loaded, we check to ensure that the packaging is in good condition.
- Upon arrival of the goods at our main RONCO warehouse in Canada, a further quality inspection is performed.
- For shipments made directly to our customers, our quality department coordinates (in consultation with the customer) a quality inspection by our representatives across Canada.

HACCP

In response to increased consumer demands for food safety, Canada's governments — both federal and some provincial — have developed food safety programs incorporating internationally recognized HACCP — Hazard Analysis Critical Control Points — principles to reduce the risk of cross-contamination. RONCO features a full line of disposable and reusable gloves, as well as protective gear, many offered in a variety of colours, to assist you in achieving HACCP compliance.

CFIA

We recognize that many of our customers in the food processing industry require "Letters of Non-Objection" from the CFIA (Canadian Food Inspection Agency). We have successfully obtained these letters for products that are used in the food processing and service industries.

ISO

RONCO is ISO 9001:2015 certified as well as ISO 13485:2003 certified for our medical device products. As such, our entire company is committed to providing products and services that consistently satisfy and exceed the requirements and expectations of our customers.

- We have established and will continually improve the effectiveness of our quality management system, embracing the values of our business and customers.
- We strive to work with suppliers who are also ISO 9001:2015 certified.

Past, Present and Future

Founded in 1996, RONCO Protective Products is a world class manufacturer of safety products for head, hand, and body protection. Since its inception, RONCO has strived to meet and exceed customers' needs through commitment to manufacturing consistent quality products and providing the best service industry wide.

Our Vision

To become a leader in the supply of safety (PPE) products.

Our Mission

To provide our customers with consistent quality products to enhance user safety, confidence and productivity at competitive prices.

Operations

RONCO's head office is in Concord (north of Toronto), Ontario, Canada and its operations encompass Canada and the Far East. Sales offices all across Canada complement RONCO's presence in the Canadian market. High tech and state of the art manufacturing facilities in China and Malaysia, allow RONCO to manufacture top quality products while remaining extremely competitive. An on-site team of dedicated quality assurance inspectors and market researchers ensure that RONCO's corporate values are being enforced for human resources standards, manufacturing and quality processes.

RONCO takes pride in the quality of the people involved at all levels of its operations and ensures that its employees are satisfied with their work and have the tools they need to achieve their tasks effectively time after time. By creating more value in the workplace, RONCO is able to create more value in the marketplace.

Your satisfaction drives our ambition

focus on quality

Disposable Gloves

Synthetic, Vinyl, Nitrile, Latex, Polyethylene, Nitech®, Examination, Dispensers

Industrial Gloves

Nitrile Reusable, Latex Reusable, Neoprene, Dipped, Cut Resistant, Cold Resistant, Heat Resistant, Leather, Inspection, Canvas, String Knit

Protective Apparel

Aprons, Gowns, Sleeves, Balaclavas, Bouffant Caps, Dispensers, Hairnets, Beard Covers, Masks, Respirators, Rain Gear, Coveralls, Labcoats, Freezer Jackets, Safety Eyewear, Ear Protection, Shoe Covers, Bump Caps, Traffic Vests

Disposable Gloves

RONCO features a wide range of disposable gloves; in Nitech®, synthetic material, vinyl, latex, nitrile and polyethylene.

Most of these are available as both lightly powdered and powder free gloves, with sizes ranging from X-Small to XX-Large.

RONCO provides options in disposable gloves that cater to a variety of applications across a wide range of industries including food processing, food service, beauty, industrial, light chemical and medical among others.

Quality Control

At RONCO, we believe in strict quality checks at various stages, including during production, packaging and upon arrival.

We check the gloves for various properties including the following:

PROPERTIES	DESCRIPTION
Length	
Thickness	Fingertip Palm Cuff
Physical properties	Tensile strength, before and after aging Elongation, before and after aging Maximum powder level
Major visual defects	Holes in the fingers Holes between fingers Uneven colour Coagulum > 5 mm Weakness between fingers Foreign particles/dirt/stains (Non-removable) Mixed size Excess powder No bead or not completed bead
Minor visual defects	Removable dirt Slight colour variation Small stains Coagulum < 5mm Uncharacteristic odour Blister bead
Pinholes	

RONCO's AQL (Accepted Quality Level) meets or exceeds the international standards.

AQL:	
Pinholes	1.5
Major defects	2.5
Minor defects	4.0

Colour Coding System

RONCO uses an innovative size selection colour coding system on the entire range of disposable glove dispensers to facilitate easy identification of the correct glove size. Each dispenser is colour coded on both ends as well as on the top panel making it easier to identify the right glove size.

- X-Small / T petit
- Small / Petit
- Medium / Moyen
- Large / Grand
- X-Large / T grand
- XX-Large / TT grand

HACCP Compliance

RONCO offers a wide range of gloves in a variety of colours to assist in HACCP (Hazard Analysis and Critical Control Points) compliance. The different colours help you reduce the risk of cross-contamination at your workplace.

Certifications

For all the products used in food service and food production industry, RONCO has obtained certification from CFIA (Canadian Food Inspection Agency), that make them suitable for use in food establishments.

RONCO also has obtained medical devices licenses for its range of examination gloves.

As an industry leader, RONCO innovates again by introducing the most advanced material technology in the market. Fabricated from special materials, this glove offers flexibility, touch sensitivity and elasticity while maintaining the durability and resistance to some chemicals.

FEATURES

- Manufactured from a patented blend of premium quality synthetic materials
- **EASY DONNING TECHNOLOGY** facilitates putting on gloves in wet, humid or sweaty conditions
- Beaded cuffs
- Excellent strength and superior elasticity
- Reduces hand fatigue and eases finger movement

Examination Gloves

Examination Gloves

Industrial Gloves

Unsupported Gloves

Unsupported gloves are manufactured by dipping a ceramic mould directly into Natural Rubber Latex and/or Poly Vinyl Chloride (PVC), and/or Nitrile solution and other polymers. The type of polymer used and the thickness determines the level of resistance gloves have to chemicals, abrasions, and tear.

UNSUPPORTED FLOCKLINED

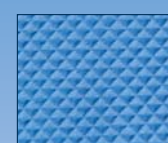

The inside of a flocklined glove is sprayed with cotton before drying. This type of glove provides added comfort and also absorbs excess sweat from hands.

UNSUPPORTED UNLINED

An unlined glove is subjected to a process called chlorination, which makes donning the glove easier without putting any powder inside.

Types of Grip

DIAMOND EMBOSSED

DIAMOND RECESSED / FISH SCALE

Glove Materials - Unsupported Gloves

NITRILE

- Provides good snag, puncture, and abrasion resistance. Also provides good resistance to bases, oils, solvents, esters, grease and animal fat.
- Comes in both unlined as well as flocklined

LATEX

- Provides a relatively high level of flexibility and is very elastic. Some people exhibit an allergic reaction to the proteins found in natural rubber, latex gloves are not recommended for them.
- Comes in both unlined as well as flocklined

NEOPRENE

- Provides the widest range of chemical resistance including: Oils, alcohols, acids, inks and ketones

EN388 - MECHANICAL RATING OVERVIEW

The purpose of a mechanical rating is to inform a worker of the levels of physical protection that they can expect to get from the glove they are using. There are four mechanical threats that CE mechanical ratings address:

These are:

1. Abrasions: **Scrapes to the hand by abrasive surfaces.**
2. Cuts: **Lacerations to the hand by sharp blades or edges.**
3. Tears: **Tears to the skin caused by a protruding ragged edge.**
4. Punctures: **Punctures caused by protruding objects such as glass, nails or splinters.**

CE EN388 is the European testing standard by which gloves are tested for their resistance to these four threats.

Cuff Styles - Unsupported Gloves

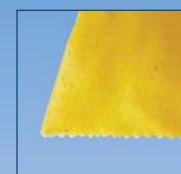

STRAIGHT CUFF

- Provides additional length for protection from chemical run-offs

PINKED CUFF

- Pinked or serrated cuff

ROLLED OR BEADED CUFF

- Provides increased protection from chemical droplets
- Greater cuff strength

Cuff Styles - Supported / Cotton / Leather

SAFETY CUFF

- Allows glove to slide on and off with ease
- Helps to protect the wrist
- Will not soften when exposed to washing or perspiration

GAUNTLET

- Allows glove to slide on and off with ease
- Additional protection for lower forearms
- Maximum forearm dexterity

KNITWRIST

- Keeps the glove firmly in place
- Prevents debris from entering the glove

SLIP ON

- Economical design
- Easy donning

Glove Patterns - Work Gloves

CLUTE CUT

GUNN CUT

REVERSIBLE

Work Gloves

INSPECTION GLOVES

- Ideal for protecting products from scratches and smudges
- Available in 100% cotton or nylon

CANVAS GLOVES

- General work gloves, washable
- Available in 100% cotton

STRING KNIT GLOVES

- Knitwrist cuff and minimal shrinkage on washing
- Available in cotton/poly blend or 100% polyester

GRAIN LEATHER GLOVES

- Smooth external side of the hide
- Provides durability and dexterity

SPLIT LEATHER GLOVES

- Rough inner side of the hide
- More economical

Leather Work Gloves

LIGHT-FIT FEATURES

Nitrile industrial gloves are made from a co-polymer of acrylonitrile and butadiene. They protect well against physical hazards such as punctures, superficial cuts, snags and abrasions. Nitrile also resists a wide range of chemicals, oils, fuels and organic solvents.

FEATURES

- 100% premium nitrile
- Available in a variety of thicknesses
- Available in unlined or flocklined
- Colour: Green or blue
- Textured surface for good grip
- Offers high flexibility and ease of finger movement
- High resistance to a variety of chemicals
- Highly resistant to abrasive tasks

Protective Apparel

Choosing the proper protective garments is very important in ensuring worker safety. Determining which apparel is best suited for a job requires thorough knowledge of the duties to be performed as well as an assessment of the workplace to spot environmental hazards. Sound

knowledge of the industry standards can also contribute to the proper selection of the type of apparel needed. RONCO offers a wide variety of safety apparel to address common protection needs and requirements of various industries.

- Aprons
- Sleeves
- Beard Covers
- Bouffant Caps and Hairnets
- Bump Caps and Hard Hats
- Disposable Masks
- Rain Suits
- Balaclavas
- Respiratory Protection
- Traffic Vests
- Coveralls and Labcoats
- Shoe Covers
- Safety Glasses
- Ear Plugs
- Freezer Jackets

RONCO protective apparel is made from premium quality material, ensuring reliability and safety for workers who depend on them to accomplish their daily activities. Many

of these products are approved by the Canadian Food Inspection Agency for use in federally registered food establishments.

SOLUTION FOR HACCP COMPLIANCE

POLYETHYLENE

Most commonly used plastic; this is a single layer of polyethylene film providing good protection against fluids.

CPE (Cast polyethylene):

Excellent protection against liquids, oils and particulate matter

LDPE (Low density polyethylene):

Excellent resistance to water, moisture and most organic solvents

HDPE (high density polyethylene):

Excellent resistance against several acids, alkalis and solvents

Material properties:

- Hardness: HDPE>LDPE
- Strength: HDPE>LDPE
- Ductility: HDPE<LDPE
- Single use material

POLYPROPYLENE

100% virgin spunbonded polypropylene; it is a single layer woven like fabric providing good protection against dry particulates and light fluids.

Material properties:

- Superior breathability
- Soft and lightweight

MICROPOROUS

Microporous material provides an effective short-term containment of contaminants in a sterile environment.

The construction is light in weight but provides comfort, strength, durability and impermeability.

It traps dirt, bacteria, spores and other airborne contaminants while allowing gasses to pass through it, making the material breathable.

Material properties

- Flexible and light-weight
- Breathable
- Strong
- Low linting
- Barrier against liquids

POLYURETHANE

A biodegradable material that reduces environmental impact; polyurethane provides excellent resistance against chemicals, acids, fats, oils and grease. The fabric is smooth and seamless; eliminates bacterial and dirt traps.

Material properties:

- Resistance to temperature down to -54°C / -65°F, up to 82°C / 180°F
- Excellent puncture, abrasion and tear resistance
- 100% waterproof
- Washable material; can be reused

POLYETHYLENE APRONS FEATURES

- Made from polyethylene
- Smooth finish
- Colour: white, blue or yellow
- Available in 2 sizes: 28" x 46" & 38" x 60"
- Resistant to a variety of chemicals, fats and oils
- Four thicknesses: Economy, Standard, Premium and Premium Plus
- Flexible and lightweight

POLYETHYLENE APRONS

Style	Measurement	White	Blue	Yellow
CARE (0.75 mil)	28" x 46"	165W	165B	165Y
CoverMe (1 mil)	28" x 46"	31-112	31-512	-
CoverMe (1.5 mil)	28" x 46"	31-124	31-524	-
Premium CoverMe (1.5 mil)	38" x 60"	31-126	31-526	31-326

Packaging:

- Economy: 100 aprons x 10 bags = 1000 aprons per case
- Standard: 100 aprons x 10 bags = 1000 aprons per case
- Premium: 100 aprons x 5 bags = 500 aprons per case

VINYL APRON FEATURES

- Made from premium quality PVC
- Colour: White or blue
- Offered in 8 mil, 6 mil, and 4 mil thickness
- Permanently welded grommets (41-032 and 41-012)
- High quality ties
- Easy to clean
- Lightweight and flexible
- Resists a variety of chemicals, fats and oils

COVERME™ VINYL APRONS

Style, Size	White	Blue
8 mil, 35" x 45"	41-032	41-532
6 mil, 59" x 35"	41-165W	-
4 mil, 35" x 45"	41-012	-

Packaging: 12 aprons x 6 bags = 72 aprons per case

PVC SUPPORTED APRONS FEATURES

- Made from PVC
- Belly patch
- Thickness: 14 mil
- String tie around neck
- Easy to clean
- Puncture resistant
- Resistant to a wide variety of chemicals, acids, oils, fuels, solvents, detergents, and alcohols

COVERME™ PVC SUPPORTED APRONS

Packaging:
1 apron x 24 bags = 24 aprons per case

Style	Yellow	Blue
35" x 45", 14 mil	41-322YL	41-322BL

POLYURETHANE APRONS AND GOWNS FEATURES

- 100% polyurethane
- Thickness: 5.5 mil
- Gowns have elastic sleeves
- Gowns eliminate need for protective sleeves
- Durable and easy to clean
- Resistant to punctures and tears
- Durable material and easy to clean
- Exceptional resistance to a wide variety of chemicals, acids, oils, fuels, solvents, detergents, and alcohols

COVERME™ POLYURETHANE APRONS & GOWNS

Packaging:
Aprons: 12 aprons x 2 bags = 24 aprons per case
Gowns: 6 gowns x 2 bags = 12 gowns per case

Style	White	Yellow	Blue
35" x 45" Diecut Apron	38-162W	38-162Y	38-162B
35" x 50" Diecut Apron	38-162WL	38-162YL	38-162BL
35" x 45" Adjustable Straps Apron	38-164W	38-164Y	38-164B
35" x 50" Gowns	38-372W	38-372Y	38-372B

CPE GOWN FEATURES

- Made from cast polyethylene
- Resists penetration of liquids
- Apron style neck with back yoke and self material ties
- Thumb loops prevent sleeves from sliding up
- Smooth finish inhibits bacterial growth

COVERME™ GOWN CPE Gown with Thumb Loops

ORIGINAL CPE GOWN

Packaging:
50 gowns x 4 bags = 200 gowns per case

SLEEVES FEATURES

- Lightweight and flexible material
- Elastic on both ends for optimal fit
- High level of comfort
- Complementary to protective aprons

RECOMMENDED FOR:

- Bakery
- Chemical
- Food processing
- Food service
- Industrial
- Funeral
- Janitorial
- Laboratory
- Meat packing
- Pharmaceutical

POLYETHYLENE SLEEVES FEATURES

- Made from polyethylene
- Smooth finish
- Standard and premium length: 18"
- Economy length: 16"
- Colour: White, yellow or blue
- 3 Thicknesses: Economy, Standard, Premium
- Flexible and lightweight
- Resists a variety of chemicals, fats and oils

VINYL SLEEVES FEATURES

- Made from premium quality PVC
- Length: 18"
- Colour: White or blue
- Thickness: 8 mil and 4 mil
- Easy to clean
- Lightweight and flexible
- Resists a variety of chemicals, fats and oils

POLYURETHANE SLEEVES FEATURES

- 100% Polyurethane
- Length: 18"
- Colour: White, yellow or blue
- Thickness: 5.5 mil
- Heavy duty strength
- Easy to clean
- Resistant to a variety of chemicals, acids, oils, fuels, solvents, detergents, and alcohols

POLYETHYLENE SLEEVES

Packaging: 100 sleeves x 20 bags = 2000 sleeves per case

**All PRIMACUT™ sleeves were previously known as Defensor.

PRIMACUT™ CUT RESISTANT SLEEVES WITH THUMBHOLE

• RONCO HPPE engineered fiber, Cut Level 5

- Highly cut resistant sleeves are knit from speckled grey HPPE allowing heat to dissipate away from body
- Soft hand feel with moisture absorption and permeability
- Abrasion, tear, and cut resistant
- Thumbloops prevent sleeves from riding up
- Hi-viz good for lowlight conditions

Packaging: 10 sleeves x 10 bags = 100 sleeves per case

Size	Grey	Hi-Viz
18"	68-514-18	68-518-18

COTTON SLEEVES

- Seamless knit cotton sleeves offer added protection from minor scrapes or abrasions
- Cool and comfortable to wear
- Excellent for workers in warm climates who need added protection

Packaging: 100 sleeves per case

Size	Item #
18"	SP-CS-2-18
20"	SP-CS-2-20

DUPONT™ TYVEK® SLEEVES

- Composed of flashspun high-density polyethylene which creates a unique, non-woven material available only from DuPont™
- Tyvek® fabric offers an inherent barrier to particles down to 1 micron in size
- Elastic at both ends (bicep and wrist) for arm protection

Packaging: 200 sleeves per case

Size	Item #
One Size	DP-TY500S

DUPONT™ KEVLAR® SLEEVES

- Kevlar® engineered fiber helps prevent cut and slashes
- Inherently flame-resistant and can withstand heat up to 900° F (400° C) without degrading
- Excellent choice in arm protection for glass and steel industries

Packaging: 100 sleeves per case

Size / Style	Item #

One size	90-350

Front: 2 vertical, 1 horizontal
Back: X-shape cross stripes

COVERME™ XP 2000

TYPE 5/6 CERTIFIED LIQUID SPLASH & INFECTIVE AGENTS RESISTANT COVERALL

CoverME XP 2000 is made of microporous fabric and provides great protection against chemical liquid spray, while remaining a breathable and comfortable wearing experience, ideal for widerange of industrial applications.

- Great penetration resistance against chemical liquid, blood, body-fluid and infective agents. Passes EN368, ASTM F1670 & EN14126: performance meets WHO protective clothing standard for Ebola
- Low linting reducing the risk of contamination to work environment
- Suitable for cleanroom. Passes ISO class 6 and above clean room standard

- Application: Epidemic prevention/biological hazards, clean room, asbestos handling, agriculture, automotive, chemical handling, electronics, paint spray, pharmaceutical

- Kidney flap for increased protection from the cold
- No pockets, prevents cross contamination

Packaging: 10 jackets per case

1 Select the Right Safety Eyewear

Choosing the right options assures that you will select the right safety eyewear for your particular situation. The right combination of options also ensures that you will wear safety eyewear more often.

Identify Hazard

Hazards	Possible Applications
A. Impact from flying objects	Chipping, scaling, stonework, drilling, grinding, buffing, polishing, hammer mills, crushing, heavy sawing, planing, wire and strip handling, hammering, unpacking, nailing, punch press, lathework.
B. Dust particles, wind, etc	Flour dust, grain dust, spice grinding, spice handling, woodworking, sanding, light metal working and machining, exposure to dust and wind, resistance welding (no radiation exposure), sand, cement, aggregate handling, painting, concrete work, plastering, material batching and mixing.
C. Splash from water, acid, chemicals or other liquids	Chemical handling, pesticide handling, chemical spray, acid and alkali handling, degreasing, pickling and plating operations, glass breakage, liquid bitumen handling.
D. Abrasive blasting materials	Sand blasting, shot blasting, shotcreting.
E. Optical radiation - glare, stray light	Reflection, bright sun / lights, outdoor work. UV radiation - NOTE: All NOVA safety glasses / goggles protect against UV radiation.
F. Low visibility	Working in dark indoor spaces. Fogging in high humidity, sudden temperature.

2 Consider Your Options

Select your lens colour, coating, confirm fit and feel, then maintain your product.

Lens coatings make eyewear more versatile and last longer. Common coatings are anti-scratch or anti-fog (for high humidity).

Lens tints range from clear lenses - for normal working conditions, grey - for partial sunlight or for some indoor applications, and photochromic lenses - for darken in outdoor light.

Lens Colour	When to Use?
Clear	General indoor applications
Smoke/Grey	Outdoor applications involving bright lights
Amber	Applications with low light conditions

Ensure comfortable fit of the eyewear you select since you will have to wear them for extended periods of time.

Lastly, clean your device daily and avoid rough handling - lens can be irreversibly scratched.

Safety Eyewear

Safety Eyewear

SAFETY GLASSES FEATURES

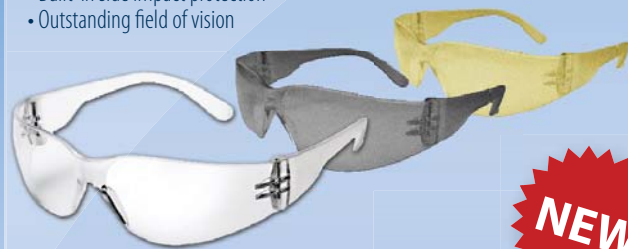

- Scratch resistant polycarbonate lens
- Stylish economic eyewear combines fashion, fit and functions
- All models are CAN/CSA Z94.3 compliant

RECOMMENDED FOR:

- Agricultural
- Automotive
- Chemical
- Construction
- Industrial
- Janitorial
- Mining
- Painting
- Food processing

NOVA™ E Series - One-Piece Lens Safety Glasses

- Single piece lens that fits most faces
- Molded-in nose bridge
- Built-in side impact protection
- Outstanding field of vision

NEW

Packaging: 12 glasses x 12 dispensers = 144 glasses per case

Style	Item #	Hazard Protection
Clear, Anti Scratch	82-050	A
Clear, Anti Scratch, Anti Fog	82-100-F	F
Smoke/Grey, Anti Scratch	82-101	E
Amber, Anti Scratch	82-104	F

NOVA™ E+ Series - Wrap-Around Safety Glasses

- Light weight and flexible frame for unmatched comfort
- Soft temple tip pads for a secure fit
- Sporty wrap-around design
- Economical and stylish

NEW

Packaging: 12 glasses x 12 dispensers = 144 glasses per case

Style	Item #	Hazard Protection
Clear, Anti Scratch	82-550	A,B
Clear, Anti Scratch, Anti Fog	82-130-F	F
Smoke/Grey, Anti Scratch	82-131	E

NOVA™ Adjustable Safety Glasses

- Ideal combination of economy and handy features
- Adjustable temples for best in class fit and comfort
- Lightweight for comfortable, long-term wear
- Integrated side shields

Packaging: 12 glasses x 12 dispensers = 144 glasses per case

Style	Item #	Hazard Protection
Clear, Anti Scratch	82-150	A,B

NOVA™ Non-Slip Safety Glasses

- Unmatched non-slip frame that keeps the glasses during movement
- Contoured fit with sporty styling that combines looks with safety
- Soft nosepiece and lightweight frame for comfort

Packaging: 12 glasses x 12 dispensers = 144 glasses per case

Style	Item #	Hazard Protection
Clear, Anti Scratch	82-450	A,B

NOVA™ S+ Glasses - Adjustable Floating Lens

- Stylish protective eyewear combines a sporty design
- Rubber nose pads provide comfort and anti-slipping
- Adjustable temple length for ideal fit
- Pantoscopic adjustment allows lens angle modification

Packaging: 12 glasses x 12 dispensers = 144 glasses per case

Style	Item #	Hazard Protection
Clear, Anti Scratch, Anti Fog	82-210-F	F

NOVA™ Visitor Safety Glasses

- Integral sideshields
- Contoured nose bridge for added comfort
- Can be worn over most prescription eyewear
- Wide viewing area with excellent coverage

Packaging: 12 glasses x 12 dispensers = 144 glasses per case

Style	Item #	Hazard Protection
Clear, Anti Scratch	82-250	A,B

NOVA™ OTG Glasses

- Stylish high-performance features for the most comfortable 'Over the Glasses' experience
- Dual injected rubber for extra grip
- Fits over most prescription eyewear

Packaging: 12 glasses x 12 dispensers = 144 glasses per case

Style	Item #	Hazard Protection
Clear, Anti Scratch, Anti Fog	82-650	A,B,F

NOVA™ Safety Goggles

- Economical safety goggles with soft frame
- Direct ventilation (82-800) or In Direct ventilation (82-900-F) for airflow and comfort
- Comes with non-irritant elastic strap
- Fits over most prescription glasses

Packaging: 12 glasses x 12 dispensers = 144 glasses per case

Style	Item #	Hazard Protection
Clear, Anti Scratch	82-900	B
Clear, Anti Scratch, Anti Fog	82-900-F	A,B,C,D,F
