

# Meat Industry Collection

Hygienic | Sanitary | Safe

**Remco**  
a Vikan company

Remco provides high quality, color-coded, USDA-compliant cleaning and material handling tools well-suited for meat processing facilities. In addition to shovels, scoops and scrapers, we also distribute Vikan's advanced line of brushes, brooms, and squeegees to help overcome crucial cleaning and sanitation challenges. Regardless of your meat processing operation's size or complexity Remco has the necessary solutions, expertise, training and support to assist you in executing your HACCP plans and also in ensuring regulatory compliance.

# Hygienic Cleaning and Material Handling Tools

Available from Remco Products

The meat industry is mandated by regulations to follow stringent sanitary operational procedures. Whether the objectives are to avoid allergen-cross-contact, foreign or bacterial cross-contamination, proper tool selection, storage, care and maintenance can make a significant difference in influencing food safety and sanitation. Moreover, we have the best available scrubbing and detail brushes for removing stubborn blood stains and rigid biofilms from vats, grinders, conveyers and other equipment surfaces.

Regardless of a meat processing operation's size and complexity, our color-coded tools can effectively help prevent contamination incidents between designated zones for handling raw carcasses or processed products. Also, our tools are available in as many as 12 colors, making them ideal for integration with color-coded plans.

**Remco** Large One-Piece Shovel  
6982x

Colors Available: 1 2 3 4 5 6 7 8 9 10 11 12
