

Vibration Protection Product Guide

Suppe

Why Superior Glove

Protection workers want to wear

Workers shouldn't have to choose between comfort and safety. We innovate to fit the protection they need into comfortable safety gloves and other PPE they'll want to wear.

North American Innovation

We research, design, and test our products at our Canadian headquarters to ensure safety, effectiveness, and quality.

Injury reduction education and training

We offer free resources and services to help companies develop safety programs that eliminate and reduce injuries through non-PPE changes that minimize workplace hazards and improve safety culture.

What you need to know about vibration dampening

Specially designed padding on gloves helps dampen vibration from tools and equipment. While there is no ANSI standardized testing, these gloves use materials known to suppress vibration.

Vibration Dampening **String Knit**

VIBRATION DAMPENING | STRING KNIT

With Padded Palms

String knit gloves offer more dexterity while padded palms provide vibration dampening and enhance comfort.

VIBRASTOP™ S10VIB | M - XL

Comfortable 10-gauge string knit gloves with vibration-dampening polymer palms and fingers for work with jackhammers

TENACTIV™ STAGPNVPI | 6 - 11

High cut-resistant gloves with micropore nitrile palm coating for better wet grip

⚠ WARNING: Known to the State of California to cause cancer, birth defects, or other reproductive harm. For more information, go to P65warnings.ca.gov

VIBRASTOP™ VIBGV | M - 2XL

With leather palms and fingers that contain engineered vibration-dampening material supported with adjustable wrist straps for fit and comfort

TENACTIV™ SHVPNFBVB | 7 - 11

Hi-viz, Level 2 impact-resistant gloves with high cut protection and micropore nitrile palm coating for better wet grip

Vibration Dampening Leather

ENDURA® 378GKGVB | XS - 3XL

Arc flash-rated multi-hazard gloves in premium leather

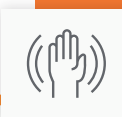

These arc flash-rated gloves offer Level 2 impact resistance and high cut protection. Made with premium leather treated with Oilbloc™ to resist water and oil penetration that can degrade the material. Plus, padded palms to provide vibration dampening and enhance comfort.

ANSI Probe

⚠️ WARNING: Known to the State of California to cause cancer, birth defects, or other reproductive harm. For more information, go to P65warnings.ca.gov

VIBRATION DAMPENING | LEATHER

Premium Leather With Padded Palms

Our premium leather gloves are treated with Oilbloc™ which resists water and oil penetration that can degrade the material and present safety issues. Padded palms provide vibration dampening and enhance comfort.

ENDURA® 378GKG4P | S - 3XL

Arc flash-rated gloves with maximum Level 3 impact protection and high cut resistance

ENDURA® 378KMT4P | XS - 3XL

Cold weather multi-hazard protection with high cut resistance

ENDURA® 378KGTVB | XS - 3XL

Cold protection with Level 2 impact resistance and high cut protection

⚠ WARNING: Known to the State of California to cause cancer, birth defects, or other reproductive harm. For more information, go to P65warnings.ca.gov

ENDURA® 375GKGVB | S - 2XL

Level 2 impact resistance with high cut protection and 6" cuffs for added wrist and forearm protection

ENDURA® 378GOBBFC | S - 2XL

Crush resistant finger caps to protect fingertips from pinch and crush hazards with moderate cut resistance

ENDURA® 378GKVS | XS - 3XL

Level 2 impact protection for tasks that don't involve cut hazards

VIBRATION DAMPENING | LEATHER

Economy Leather With Padded Palms

An economical alternative for tasks that don't require oil or water resistance. Padded palms provide vibration dampening and enhance comfort.

ENDURA® 378GKGVBE | XS - 3XL

Level 2 impact resistance with high cut protection

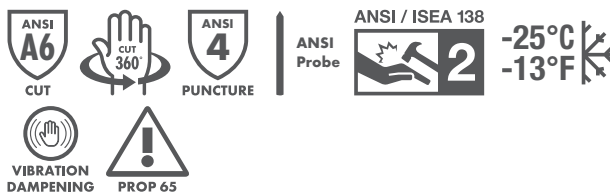

ENDURA® 378GKGVBG | XS - 3XL

Level 2 impact resistance with high cut protection and 6" cuffs for added wrist and forearm protection

ENDURA® 378GKGTVE | XS - 3XL

Level 2 impact resistance with cold protection and high cut resistance

⚠ WARNING: Known to the State of California to cause cancer, birth defects, or other reproductive harm. For more information, go to P65warnings.ca.gov

Additional Resources

GLOVE SIZING GUIDE

A proper fit is extremely important. An uncomfortable fit causes hand fatigue and ultimately could lead to a potential workplace hazard.

Measure the width of your hand from the base of your first finger and across your knuckles.

5 / 2XS	50 mm / 2 inches	9 / L	101 mm / 4 inches
6 / XS	63 mm / 2.5 inches	10 / XL	113 mm / 4.5 inches
7 / S	75 mm / 3 inches	11 / 2XL	126 mm / 5 inches
8 / M	88 mm / 3.5 inches	12 / 3XL	140 mm / 5.5 inches

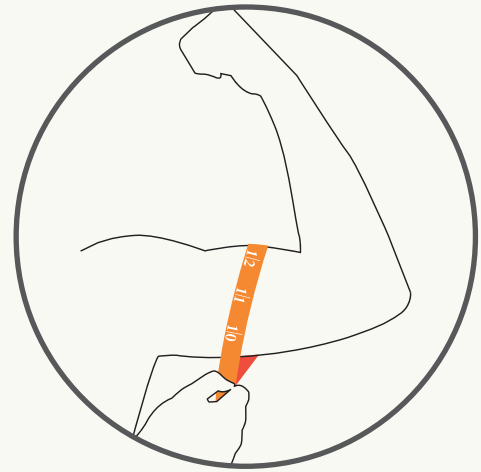

SLEEVE SIZING GUIDE

To find the best fit, measure the circumference of your bicep and choose sizing according to the chart below.

Sleeves come in multiple lengths.

2XS	250 mm / 9.75 inches	L	295 mm / 11.75 inches
XS	260 mm / 10.25 inches	XL	370 mm / 14.5 inches
S	265 mm / 10.5 inches	2XL	450 mm / 17.5 inches
M	280 mm / 11 inches		

For a more natural fit, sleeves come in a tapered version which provide better comfort and staying power. Tapered sleeves are designed to fit the contours of your arm and won't lose shape due to stretching
